

760 Classic Day Cruiser

Open

(+) DESCRIPTION

Coastal cruising day boat for unforgettable moments with family and friends, for those who are passionate about modern classic wooden boats.

A 25' (7.6m) with a traditional line and effective features.

The boat is the result of an eco-design which favours short wood supply chains.

Quality, sustainable and effective eco-friendly construction made of composite wood with low environmental impact.

With its 140 or 220 hp engine, the 760 has excellent criteria with sufficient margin of safety and ease of maneuver. The 760 offers significant savings in use, with its design to sit on a trailer to prevent mooring fees and increase your autonomy.

The tilting stern drive enables to get close to the shore.

The engine is discrete in its soundproof compartment.

The boat has high seakeeping qualities and safety with its self-draining cockpit, high freeboard and V-shaped hull.

Cosy cabin with a kitchen area associated with a cold block, 2 berths, a seat covering a discreet sanitary block, a trunk under berths.

With its wood finish and high quality seats, the 760 provides natural comfort and warmth.
