

# Floating home

**(+)** Floating building of 75 m<sup>2</sup> accessible. The arched shape of the floating timber frame construction makes it warm and atypical.

The angled bay window opening onto the terrace provides stunning views of the environment.

Real living space convertible into workspace largely lighted by bay windows and openings with solar protection, reclining blades and removable canopy cover.

The arched structure space provides a feeling of being protected.

**(+)** Sizes: 23.20 x 8.10m

Living space: 64 m<sup>2</sup>

Outdoor deck area: 50 m<sup>2</sup>

Technical room: 11 m<sup>2</sup>

Connecting at the dock (water networks, electricity).

Level of self-sufficiency bespoke on request.

Accessible space.

Hull made of two steel floaters.

High thermal and energy efficiency.
