

Floating Building

(+) Floating building docked

For use in areas with high catchment potential as well as in dense urban areas, floating building moored and able to welcome the public to the dock offer comfortable spaces to develop your projects of activities and authentic concepts.

(+) Mono or multi-activities

The nature of the hosted activities is as rich as in the land. They can be mixed in associations and new concepts to increase the potential attractiveness of the structure and its financial sustainability.

Hospitality, catering, events and MICE, service, co-working, cultural, retail, industrial, logistics, life base, sports activities, ...

From 50 to more than 1000 people, capacities are defined to satisfy the objectives according to the various security and operational constraints.

From 200 m² to more than 3500 m², the spaces are designed and optimized to offer great potentialities while maintaining a high level of comfort.
